AUTHOR Anttonen, Judith
TITLE An Annotated Bibliography of Practical Tests for Young Children. (Third Revised Edition).
INSTITUTION Pennsylvania State Dept. of Education, Harrisburg.
PUB DATE Jul 80
NOTE 58p.
AVAILABLE FROM William H. Isler or Jessie R. Sanders, Pennsylvania Dept. of Education, 333 Market Street, Harrisburg, PA 17108, (717) 787-7322.

EDRS PRICE MF01/PC03 Plus Postage.
DESCRIPTORS Achievement Tests; Affective Measures; *Annotated Bibliographies; Diagnostic Tests; Intelligence Tests; Language Tests; Preschool Education; *Preschool Tests; School Readiness Tests; Speech Tests; *Test Selection

ABSTRACT

Tests for the very young child must be nonverbal, and must be fairly brief, inexpensive, and reasonably simple to score and administer. This annotated bibliography represents a selected sample of 109 tests for children aged two through six. The selection covers most of the areas assessed in early childhood programs, including intelligence, language, speech, self-concept, body coordination, perception, vision, sociability and other cognitive, affective and psychomotor skills and abilities. Tests listed do not require subjective judgment in scoring or specialized training for administration. Information is contained in two tables. Table I lists the tests alphabetically by title and points out which of the following areas or skills are covered in the instrument: intelligence/achievement; language/speech; social/affective; sensory/motor; and screening/readiness/ diagnostic. Table II is an alphabetical list which provides the title, type, price, publisher, age or grade range recommended by the test's author, forms of test, administration time, subtests and comments obtained from catalogs and bibliographies intended to help the reader better understand the test itself. A list of publishers and their addresses is included as is the list of references used in compiling the bibliography. (RL)

Harrisburg, PA 17108

The Pennsylvania Department of Education began to reprint this publication in 1976 so that individuals working with young children could use it as a beginning reference for selecting tests for young children. Since then many existing tests changed and new tests were introduced. The department is happy to make the revised edition available to those who are responsible for selecting a test or tests for young children.

There has been an increased interest in the development of screening instruments used by school districts in kindergarten orientation programs. Screening instruments developed by many school districts are not included in this document. A companion document will be developed in the near future.

If you have any questions, or if you would like additional assistance, write or call the Early Childhood Education Unit:

William H. Isler

Introduction

The inception of Head Start in 1965 gave unprecedented status to early childhood education and firmly implanted the practice of instructional programming for young children into the educational continuum. As more early childhood programs were established, however, teachers became frustrated by the relative absence of instruments for measuring the performance of prekindergarten children. Obviously, if quality learning programs were to be established and maintained, appropriate instruments needed to be developed and disseminated.

A growing trend toward development of valid and reliable measures for use with young children can be noted in editions of Buros' Mental Measurements Yearbook. Buros, a noted author of measurement reviews, has been publishing Mental Measurements Yearbooks since 1938. In both the fifth and sixth yearbooks, published in 1959 and 1965, only one test is listed under PRESCHOOL; in 1972, the number under PRESCHOOL increased to nine; and in Buros' eighth yearbook, 1978, subheadings of Preschool, Readiness & Early Childhood are used. Where can early childhood teachers go, then, to seek help in finding the most practical and effective instrument for evaluating student performance?

Schools for children in grades one through 12 usually use professional personnel to administer tests, or at least to give guidance in the selection and administration of tests. Since the staff of early learning programs usually does not include such a specialist, it then becomes the teacher's or director's responsibility to obtain needed evaluation and assessment instruments.

Many test collections, annotated bibliographies, measurement books, and test handbooks are available to teachers of young children. However, these guides are voluminous and invariably list tests in far too many areas and for all ages of children. Tests for the very young child must be nonverbal, since most children cannot read, and they must be fairly brief, inexpensive, and reasonably simple to score and administer. This information is not readily available in one resource book.

It appears that an annotated bibliography of early childhood measurement instruments which includes appropriate practical information is needed.

Description

The following bibliography represents a selected sample of tests for children aged two through six. The selection covers most of the areas assessed in early childhood programs, including intelligence, language, speech, self-concept, body coordination, perception, vision, sociability and other cognitive, affective and psychomotor skills and abilities. Tests listed do not require subjective judgment in scoring or specialized training for administration.

Rating scales, frames of reference for observations, structured interviews, informant-interviews and projective technique tests have not been included. Costly and lengthy tests have also been omitted.

Table I on pages 5 - 12 lists the tests alphabetically, points out the areas or skills covered in the instrument, and directs the reader to the page where more detailed information concerning the test appears.

Table II on pages 13-30 is an alphabetical, annotated list which provides the title, type, price, publisher, forms of test, administration time, subtests and comments.

More specifically, Table I contains:

TEST TITLE - The titles listed are as they appear in test catalogs or bibliographies. The word "the" is missing and so is the author's name if it is not commonly used in the title, e.g. Frostig Developmental Test of Visual Perception is known as the Developmental Test of Visual-Motor Integration (VMI). Page number directs the reader to the test's location in this bibliography.

INTEL/IQ/ACHIEVEMENT - Tests that measure intellectual function or attained skills.

LANGUAGE/SPEECH - Tests or subtest scores that measure oral language communication, vocabulary and speech.

SOCIAL/AFFECTIVE - Tests that measure self-concept, personality, sociability, motivation, emotions and attitudes.

SENSORY/MOTOR - Tests that measure body coordination, auditory and visual skills, perceptual and psychomotor skills.

SCREENING/READINESS/DIAGNOSTIC - Tests that measure capacity to deal with certain tasks or diagnostic and screening tests that are primarily designed for use in placement.

Table II includes the following:

TEST TITLE - Same as Table I.

Type - This entry concerns the purpose of the test. Most often the title indicates the behavior or abilities the test measures but it is not an all-inclusive label.

PRICE - The price is the one listed in the latest Buros Mental Measurements Yearbook, or, if available, the publisher's catalog. Unless indicated, the price includes manual and key. No test over $60. is included in this bibliography. Prices are subject to change.

PUBLISHER - A numeral refers to the alphabetical List of Publishers beginning on page

AGE OR GRADE - This is the age or grade range recommended by the test's author. This age/grade range should not be accepted as an absolute limit, since many tests could be used for children who are not functioning at their chronological age.

FORM - Unless there is more than one form, the numeral I is entered. Common variations of tests, such as English/Spanish, boy/girl, black/white, are also noted.

ADMINISTRATION TIME - Tests, especially at the preschool level, are often "untimed." This is entered when the author has furnished this information. The approximate test administration is indicated, where possible. No test requiring over 60 minutes for a single sitting is listed.

SUBTEST SCORES - Many tests have subdivisions and these are listed. If there are more than six subtest scores of tested skills, etc. is written.

COMMENTS/REMARKS - This notation is usually to help the reader better understand the test itself. Comments were obtained from catalogs and bibliographies and are not a review by this writer. If the test can be administered to a small group, a notation is made.

Conclusion

The problem of selecting an appropriate measurement instrument is always present. It is hoped that this bibliography will help solve that problem.

TABLE II - ALPHABETICAL LIST OF TESTS

Test Title	Type	Price	Pub.	Age or Grade	Form	Admin. Time	Subtest Scores	Comments
ABC Inventory	Read-iness	$4.90 per 50	32	K-1	I	10-15 Mins.	Drawing, copying, folding, counting.	Useful tool. Test identifies children not mature enough for standard school program.
American School Reading Readiness Test (Rev. Ed.)	Read-iness	$7.60 per 35	3	K	I	30 min.	Readiness to read.	2 norms. Teacher can administer test. Group administration possible.
Analysis of Read. Skills	Read-iness	$7.80	32	K-1	Eng/Sp	30-40 Mins.	Visual percep. of letters, letter ident, math. ident.	Measures content to which a child is ready for intro. math and reading.
Anton-Brenner Dev. Gestalt Test of School Readiness	Read-iness	$15.00 per	42	5-6 years	I	3-10 Mins.	Ach-ability, socio-emo.	Differs from others has numeric percep. item.
Assessment of Children's Language Comprehension	Lang/ Spch.	$14.00 per kit	7	2-12 years	I	10-15 Mins.	Vocab., 2 word phrases, 3 word phrases, 4 word phrases & pictures	Defines receptive language difficulties. Normal responses required.
Auditory Discrimination Test (ADT)	Sensory Motor	$9.00	21	5-8 years	I & II Ia, IIa	5 Min.	Matched words Same of diff.	Simpler & effic. Good for establishing readiness for reading by a phonetic approach.

Test Title	Type	Price	Pub.	Age or Grade	Form	Admin. Time	Subtest Scores	Comments
Ayres Space Test	Sensor Motor	$27.50	42	3-10 years	I	20-30 Mins.	Perceptual speed, spatial/ability, position in space.	Test includes deciding through usual methods only which of 2 blocks will fit a form board.
Basic Concept Inventory	Diag.	$37.80 per 100	15	Pre-S K or disadv. emo. dist. slow-l.	I	36-60 Mins.	Concepts, statement repet, & comprehension and pattern awareness.	Tells the teacher skills to be taught child. Individually administered.
Basic School Skills Inventory (BSSI)	Diag.	$12.96 per 30	15	4.0-6.11	I	15-20 plus observ.	Self knowledge, self-help, pencil task, oral, reading readiness, number readiness behavior.	Helps to identify special learning needs of children. Pinpoints general and specific skills that require attention.
Bender Gestalt Test for Young Children	Sensor Motor	$32.00	30	5-10 years	I	untimed	Intel., brain damaged, mentally retarded, emo. disturbed.	Modif. of the Bender same test cards.
Boeim Test of Basic Concepts (BTBC)	Intel.	$9.25 per 30	30	K,1,2	A-'69 B-'71 En/Sp	30-40 Mins.	50 concepts	Excellent test for small group admin. or indiv. Useful for K & 1 and of value for low socio-economic 2nd grade.
Brigance Diagnostic Inventory of Basic Skills	Diag.	$44.95 for 10	8	K-6	I	untimed	Reading, word rec., vocabulary, hand writing, math, spelling.	All skills arranged in developmental & sequential order. Comprehensive diagnostic & eval. procedure.

Test Title	Type	Price	Pub.	Age or Grade	Form	Admin. Time	Subtest Scores	Comments
Brigance Diagnostic Inventory of Early Development	Diag.	$49.95 for 10	8	0-7 years	I	untimed	Pre-ambulatory, motor, gross and fine motor, communication, readiness, math, writing.	Assesses strengths and weaknesses in the development of children.
Bristol Social Adjustment Guides	Soc-Aff.	$16.00 per 100	11	5-16 years	I	10-15 mins.	Unforthcomingness, Withdrawal, Depession, Inconsequence, Hostility, Peer Maladaptiveness.	For use in measuring behavior disturbance.
California Pre-Schoolers Social Competency Scale	Soc-Aff.	$25.00 per 25	7	2½-5½ years	I	rating time	30 items	Measures interpersonal behavior. Percentiles and norms included. Easy to use.
Child Development Center Q Sort	Soc-Aff.	$20.00 per level	38	PreK-3	I	untimed	114 items - 7 categories at each level.	This monograph describes the original Q sort method.
CIRCUS	Diag.	$13.50 per 10	1	Pre-primary	I	untimed	14-16 diag measures at each level.	A comprehensive program of assessment services. Can become expensive.
Clymer - Barrett Prereading Battery	Readiness	$9.56 per 25	42	K-1	Reg & short screening	30 min. ea. 90 Min. Total	Vis-disc, aud-disc, vis-motor.	Popular group admin. test to assess kindergartners prior to beginning of formal reading instruction.

Test Title	Type	Price	Pub.	Age or Grade	Form	Admin. Time	Subtest Scores	Comments
Cognitive Abilities Test (CAT)	Intel.	$12.00 per 35 hand scored	33	5-9 years	Prim.	12-16 mins. per session 4 session	Verbal, Quantitative & non-verbal.	Pictorial materials and oral instruc. Reveals level and pattern of child's abilities.
Cognitive Skills Assessment Battery (CSAB)	Read-iness	$23.50 for 50	39	Pre-K-K	I	20-25 mins.	Body parts, colors, shapes, numbers, motor.	No training needed. Individually admin.
Communicative Eval. Chart	Lang.	35¢ each	13	Inf.-5	I	15-20 mins.	Lang., vis-motor, perception.	Quick appraisal of child's overall abilities or dis-abilities in skill areas.
Comprehensive Assessment Program (CAP)	Ach.	$7.00 per 35	35	PreK-K	levels 4-6	Short/ untimed	Language, math, reading, auditory and visual.	Evaluates the devel-opment of learning processes.
Concept Assessment Kit	Intel.	$26.50	11	4½-K	A,B,C A&B are paral. C is a diff. dimens.	15 mins.	2 dimen. space, weight, number substance. Contin-uous quantity, weight, area and length.	Assesses sophistica-tion of conservation concepts.
Cooperative Preschool Inventory	Diag.	$7.60 per 20 & man.	1	3½-6 years 3-5 years	Reg. & Short rev. ed. Sp. ed.	15-20 mins. 30 mins.	Time sequence, nu-merical concepts, social roles, fol-lowing directions, sensory concepts.	Inexpensive. Reveals degree of disadvant-age of a child. Need crayons cars, boxes.

Test Title	Type	Price	Pub.	Age or Grade	Form	Admin. Time	Subtest Scores	Comments
Delco Readiness Test	Read-iness	$25.00 per 100	9	4-6 years	I	15 mins.	Auditory disc, visual disc, visual motor & visual memory, auditory memory.	Supplementary test of auditory, visual, word disc. & alpha recognition are available-Group Adm.
Denver Development Screening Test (DDST)	Screen	$6.00 kit, manual per 100 forms	20	2-6 years	I	10-20 mins.	Gross motor fine motor, personal, social, indiv.	Good screening test for young ones.
Developmental Tasks for Kindergarten Readiness (DTKR)	Screen	unknown	6	PreK-K	I	20-30 mins.	12 Subtests: Lang. visual-motor, colors, numbers, alphabet, social interaction.	Screens child's per-formance to find areas of strength and weak-ness. Norm rating obtained.
Developmental Test of Visual Motor Integration (VMI)	Sens/ motor	$7.47 (short) $10.71 (long) per 15 forms	7	2-15 years	2 long short	15-20 mins.	Eye motor, figure ground, shape, position in space.	Identifies children who have problems in coordination of visual-motor areas. Indiv. or group admin.
Dvorine Color Vision Pseudochromatic Plates	Sens/ motor	$49.75 Kit	17	Presch. -adult	I	2 mins.	N/A	Quick convenient and reliable method of identifying child with color vision defic-iencies.
Dyslexia Schedule	Sens/ motor	65¢ ea.	13	Late K	I	10-15 (parent) 20-25 for sched.	24 items.	Questions for parent Dyslexia background based ques.

Test Title	Type	Price	Pub.	Age or Grade	Form	Admin. Time	Subtest Scores	Comments
El Circo	Read-iness	$13.00 for 10	1	PreK-K, 1st	Eng/ Span.	15-30 mins.	Recep. Language, quantitative skills.	Helps to identify learning needs in language and math, uses clowns and circus animals.
First Grade Screening Test (FGST)	Screen	$15.00 25 boy forms 25 girl forms	2	5-7 years	boy/ girl	untimed 45 mins. Kind. 30 mins. 1st Grd.	Items include know-ledge, body image, motiv, visual-motor coord, memory.	A group admin. test, identifying potential learning difficulties.
Full Range Picture Vocabulary Test (FRPV)	IQ	$17.00 per 25	31	Age 2-adult	A&B	5-10 mins.	Intelligence based on verbal compre-hension.	Good for physically handicapped, palsied, speech impaired.
Gates MacGinitie Reading Test	Read-iness	$7.50 per 25	33	K-1	I R Level	65 mins. 12 ses.	Listening, Auditory, visual-mot, visual-disc, direc follow, letter recog, word recog., Etc.	Evaluates readiness skills. Still in press.
Gesell Institute School Readiness Materials	Read-iness	$6.50 per 10 forms	33	5-10 years	I	30 mins.	2 three dimens. objects, plus draw a man. Quantity, language, motor, social.	Training suggested. Developers feel children enter school on basis of dev. age not IQ or Chron age.
Goldman-Fristoe Woodcock Test of Auditory Discrimination	Sens.	$25.10 per kit w/50 bl.	2	4 & up	I	10-15 mins.	2 test conditions - quiet & background noise.	Need earphones, and record player avail. Easy to administer and score.

Test Title	Type	Price	Pub.	Age or Grade	Form	Admin. Time	Subtest Scores	Comments
Henmon-Nelson Tests of Mental Ability	Ach.	$14.46 per 35	42	Prim. & K	Prim.	25-30 mins. untimed	Listening, reasoning and ability to understand abstract relationships.	One of the most popular group tests of academic aptitude.
Illinois Test of Psychol. Linguis. Ability (ITPA)	Lang.	$80.00	41	2-10 years	I	45-60 mins.	9 subtests; auditory visual, sound, verbal, etc.	Designed to measure functions contrib. to language devel.
Inventory of Primary Skills	Read-iness	$5.50 per 10	14	Kinder & transit	I	ongoing	Contains 300 primary skills, spatial re-lations, copying designs, alphabet...	Inventory form for use with Kind. & Primary children.
Inventory of Readines Skills	Diag.	$13.75	12	Presch. Kind.	Eng. Spn.	20 mins.	Aud. Percep. Visual & Motor, (letter names, Letter Per-cep., color disc.	Convenient, dependable can be used as a pre post test - gives a profile of child's scores.
IPAT Culture Fair Intel.	Intel.	$12.00 per 25	19	4-8 years	Scale I Lang. free	22 mins.	Questionnaire - not wholly figural - 8 subtests.	A culture fair test to fit population & purpose.
Joseph Preschool and Primary Self-Concept Screening Test	Soc/ Emo	$35.00 per 100	38	3½-9 years	I	5-7 mins.	Soc-emotional development.	May be used with non-verbal. Screens children with negative self-concepts.
Kerby Learning Modality Test	Screen	$59.50 per kit	42	5-11 years	I	15 mins.	8 subtests: Vision, hearing, motor, etc.	Individual or group administered. Minimal demands on child's attention span.

Test Title	Type	Price	Pub.	Age or Grade	Form	Admin. Time	Subtest Scores	Comments
KeyMath Diagnostic Arithmetic Test	Diag.	$29.50 kit	2	Presch.-Gr. 6	I	30 mins.	14 subtests, incl. content operations, application.	Indiv. gives diag. profile of child's strengths & weaknesses. Useful for Ident., problems, EMR, & neurologically impaired.
Kindergarten Auditory Screening Test (KAST)	Sens.	$15.00 per 15	15	K-1	I	2 Mins.	Speech, phonemic synthesis, same/diff.	Detects inadequate auditory skills, assesses perception of auditory messages. Can be admin. to group.
Kindergarten Keys Inventory	Readiness	$8.80 per 35	10	K	I	20-30 mins.	Social, general concepts, motor, memory, problem solving.	Good measure for any beginning kindergarten child.
Kindergarten Language Screening Test	Screen	$29.95 for 20	4	K	I	4-5 mins.	Receptive and expressive language, age, colors, body concepts.	Compares present language ability to a level approximate for their age.
Kraner Preschool Math Inventory	Diag.	$49.95	40	3-6 years	I	untimed	Counting, numbers, quantity, sequence, direction, position.	Individual or group administered. Analyzes math skills.
Lee-Clark Reading Readiness Test	Readiness	$5.00 for 35	17	K-1	I	20 mins.	Letter symbols, concepts, word symbols total.	Gives teacher a basis for identifying children ready to read.

Test Title	Type	Price	Pub.	Age or Grade	Form	Admin. Time	Subtest Scores	Comments
Math Comp	Diag.	$28.50 per vol.	14	K-1	I per level	ongoing	Competencies in math	Measurement system for use with any math curriculum.
Maturity Level for School Entrance & Reading Readiness	Read-iness	$4.50 per 50 & manual	2	K-1	I	15 Min.	Body coord, eye-hand speech, lang. comp, indep., social coop.	Checklist form through observations. Easy to score. Quick estimate of child's readiness for school.
McCarthy Scales of Children's Abilities	Intel.	$77.00 per set	30	2½ - 8½ years	I	45-60 Mins.	Verbal ability, memory, math, perception, motor, intelligence.	Excellent for learning disabled and other handicapped children. Controlled for sex, ethnic, region & socio-economic groups.
